

“Report back from the Stata Conference Chicago 2011”, Discussed by Estie Hudes

December 9, 2011

Covered or mentioned* presentations from the conference:

Phil Ender

Richard Williams

Sarah Mustillo*

Nick J Cox

Ryan Knight*

David Drukker (SEM)*

Bill Rising

Bill Gould (MATA)*

Materials from all presentations can be obtained directly from

<http://www.stata.com/meeting/chicago11/abstracts.html>

Most materials are in the form of a PPT or PDF file. Cox’s materials need to first be unzipped. Once this is done, double-click on the file njctalk.smcl to run his presentation from within Stata. You must have Stata installed. I believe that Stata 11 would work as well for this presentation.
