**Section J:**

*Now I'd like to ask you about your sexual relationships and sexual behavior. Some women have a lot of different sexual partners, some have only one or a few. There are no right or wrong answers, and you can skip any questions you don't want to answer or feel uncomfortable about. Let me know if you have any questions as we go ahead. Some of these questions ask about your use of condoms. I'd like to clarify that when I say "male condom" I mean a condom that goes over a man's penis. This is the kind of condom people may be more familiar with. When I say "female condom" I mean a condom that a woman inserts inside of her first and then a man guides his penis into it. Female condoms have a ring at each end and are larger and looser than male condoms.*

**[NOTE to Interviewer:** if respondent replies NO to any male condom use (J1), SKIP all questions that relate to MALE CONDOMS. If respondent replies NO to any female condom use (J2), SKIP all questions that relate to FEMALE CONDOMS.
